

THE MACHINE MDs ARE IN THE BUILDING...

Optimizing health
and performance
of mission-critical
assets with the
industry's most
innovative portfolio
of engineering,
maintenance,
and testing services

Our Proven Process

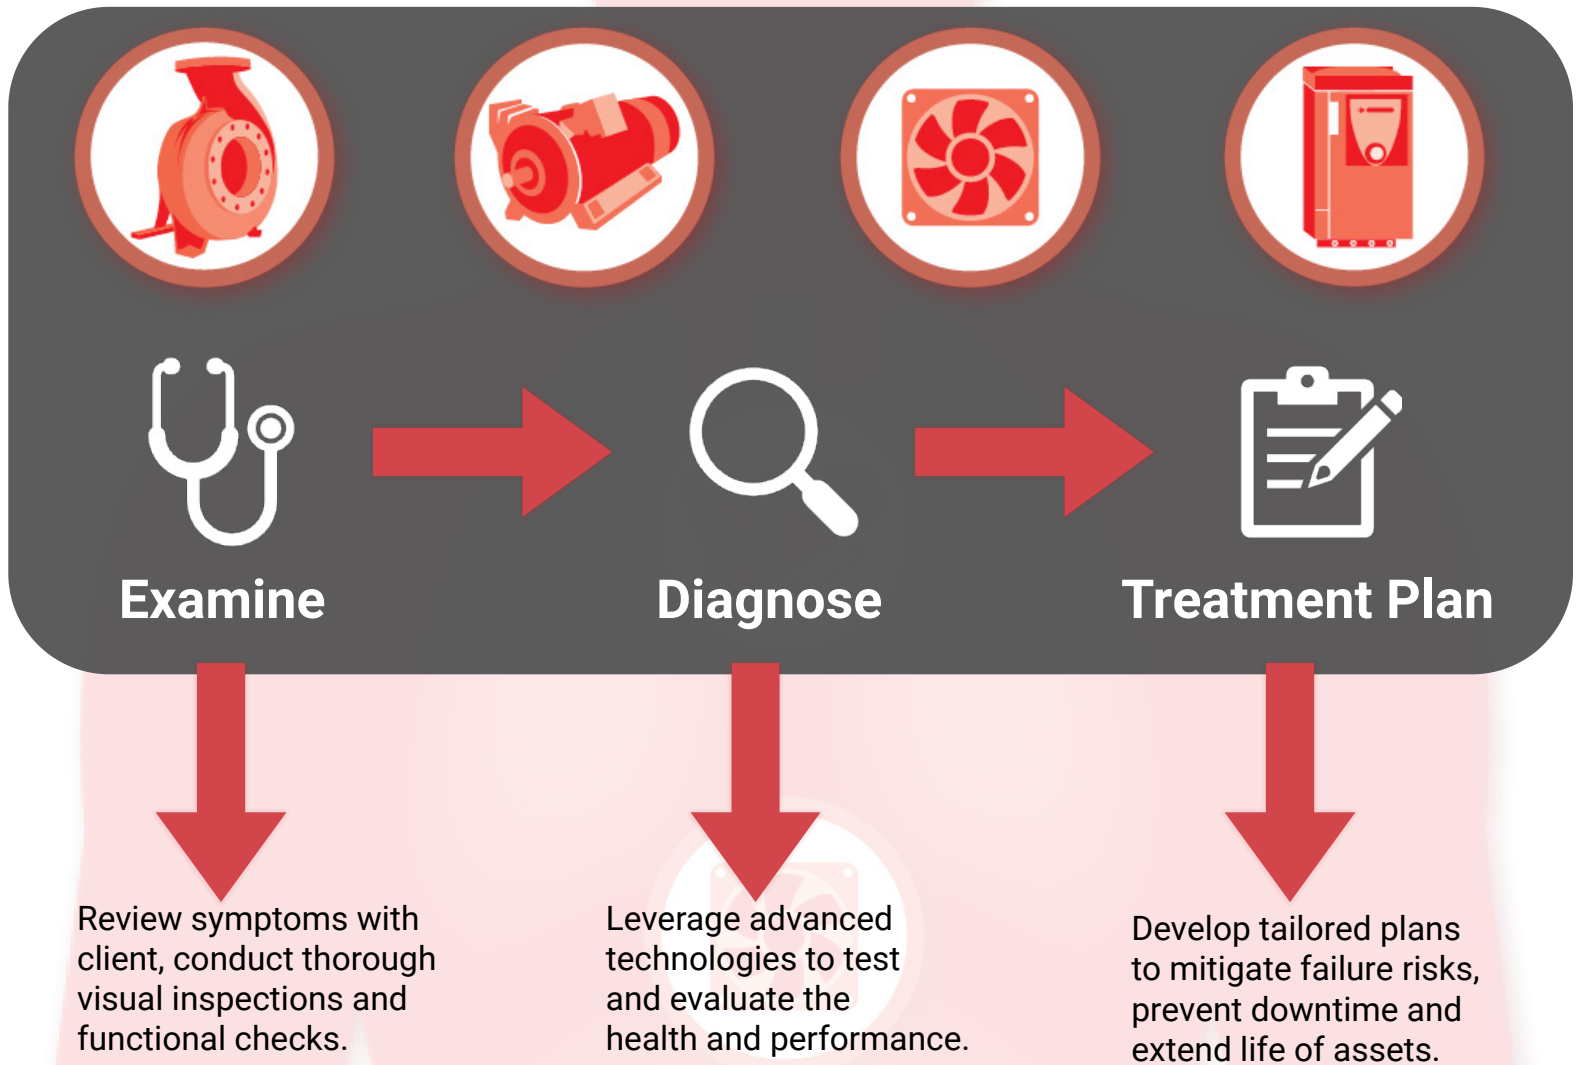

Think of your facility as a body.

The equipment within it is its organs. The piping and ductwork are its circulatory system, and the cabling is its nervous system.

Your job is to keep everything running at 100%, 24/7/365 days

When something's wrong with one organ, the rest of the body is affected. We take a holistic approach to diagnosing, rehabilitating, and healing based on our experience and understanding of mechanical systems.

Just like a check-up for the human body, we treat your mission-critical assets with care and precision. Using advanced technology, we assess the condition of your machines and create tailored treatment plans to extend their life, reliability, and maximize performance.

PREVENT + DETECT = PRETECT

Just like a periodic check-up with your doctor, **PRETECT** Machinery Health Experts examine, diagnose, and create tailored treatment plans for your mission-critical assets.

Our mission is to care for your assets as if they were our own, ensuring they operate at 100% peak performance, 24/7, 365 days a year.

PRETECT

Services We Provide

ENGINEERING

- LEED/Enhanced Commissioning & Retro-Commissioning
- Building Inspections
- Life Cycle & Single Point of Failure Analyses
- Forensic Engineering
- MEP Emergency Response Services
- MEP Project Management
- Transition to Operations (Procedure Development & Training)
- Arc Flash, Coordination, & Short Circuit Studies
- Shut-Down Scripts and Execution
- HVAC & Refrigeration Optimization and Controls
- Steam Surveys & Jackets
- LED Lighting and Controls
- Cogeneration
- Sustainable Alternative Energy Consulting

TESTING

- Vibration Analysis
- Motion Amplification®
- Infrared Scanning
- Ultrasonic Analysis
- Motor Circuit Analysis
- Critical Speed Analysis & Programming
- Isolator Load Deflection Testing
- Advanced Coherence Testing
- Mechanical Inspection
- Alignment Verification
- Isolation Verification
- Air & Water Flow Verification
- Pre-Functional & Acceptance Testing of New & Rebuilt Equipment
- Building Envelope Performance Analysis
- Certified Harmonics Reduction Consulting

CORRECTIVE ACTION

- Certified Air and Water Balancing
- VFD Preventative Maintenance
- VFD Troubleshooting
- VFD Motor Failure Analysis
- VFD Harmonic Mitigation
- VFD Application Design Consulting
- VFD Installation and Repairs
- Dynamic Balancing
- Precision Laser Alignment
- Isolator Adjustments
- Spare Parts Feasibility Studies
- Mechanical Repairs, Rebuilds, and Parts
- Vibration Switches & Sensors Installation

PRETECT

PRETECT is a trusted partner for engineering, testing, and maintenance services.

About **PRETECT**

Since 2016, we've been partnering with leading companies nationwide to support Property Management, Mission-Critical, and Industrial facilities. Our solutions focus on preventing failures and identifying optimization opportunities.

With over 35 years of expertise in mechanical systems, diagnostics, troubleshooting, and vibration analysis, we ensure your operations run smoothly and efficiently.

Locations

New York, Boston, Washington DC, Florida, California and wherever the job takes us!

Industry Expertise

Commercial Real Estate | Data Centers | Engineering Firms
Energy | Financial Services | Hospitals | HVAC Contractors
Mechanical Contractors | Mission-Critical | OEM (Original Equipment Manufacturers) | Property Management
Universities | Water & Waste Plants

Certifications

PRETECT is proud to be a member of these outstanding unions

PRETECT is equipped with advanced technologies, expert technicians, and proven processes to monitor and maintain the health of your mission-critical assets. **Call today to schedule services!**

Reliability Services

critical speed analysis | infrared vibration analysis | ultrasound

Motion Amplification®

video based vibration analysis

Cloud Monitoring

remote machine health monitoring

Corrective Action Services

Engineering | Commissioning
Acceptance Testing Services

Certified Air and Water Balancing

VFD Preventive Maintenance
and Troubleshooting
