COURSES AND SERVICES

Prices represent tuition only

Logistics costs are extra

Course Description, Duration & Price (prices are per person unless indicated otherwise)

• **Code1H – Urban Selective Point Shooting, Pistol**

Three Day Course: \$750 per person – Basic. Upon completion of this course, student will be introduced to fundamentals of point shooting and will upgrade their current skills with any pistol.

Five Day Course: \$995 per person – Advanced. Upon completion of this course, students will learn more techniques, and will develop a better muscle memorization. Their proficiency with any pistol will increase significantly.

This fast-paced course is focused on upgrading individual skills and combat proficiencies with the pistol. This course exceeds normal law enforcement standards. Operators will learn a unique weapons technique that will result in superior handgun skills and rapid reaction to fluid conditions. The class is not just about marksmanship, but focuses on how to fight and handle your weapon in combat conditions when split seconds count. Level 2 is an advanced class that offers the student more challenging scenarios and enhanced techniques.

Subject Areas

- Shooting stances
- Weapon retention
- Combat reloading techniques
- Slow fire, single tap, double tap and salvo shooting drills
- Selective shooting and target discrimination
- Strategic operational thinking
- Responding to unexpected situations
- Upgrade aggressiveness and combat mindset
- Unusual shooting conditions and situations
- CQB tactics
- Dynamic and hostile fire drills

Other costs may apply, see pages 15

• Code1R – Urban Selective Point Shooting, Rifle

Three Day Course: \$750 per person – Basic. Upon completion of this course, student will be introduced to fundamentals of point shooting and will upgrade their current skills with any rifle.

Five Day Course: \$995 per person – Advanced. Upon completion of this course, students will learn more techniques, and will develop a better muscle memorization. Their proficiency with any rifle will increase significantly.

The most advanced course available focused on upgrading individual skills and combat proficiencies with the pistol and the assault rifle (M4). This intense course exceeds normal military standards and will elevate combat readiness and fitness in preparation for high risk zone deployment. The class is not just about marksmanship, but includes special operations tactics and how to fight and use your weapon in extreme combat conditions.

Subject Areas

- Loading techniques and fighting stances
- Optics use
- Weapons malfunction
- Combat reloading techniques
- Dynamic assault and shooting while moving
- Night / adverse shooting
- Selective shooting and target discrimination
- Slow fire, single tap, double tap and salvo shooting drills
- Upgrade aggressiveness and fighting spirit
- Foreign weapons familiarization
- Unexpected situations response
- Urban obstacle course
- Dynamic hostile fire and evacuation drills

Other costs may apply, see pages 15

• Code2SM – Sniper/Sharpshooter, Military

Five Day Course: \$1,950 per person

When the success of an entire mission depends on crack marksmen, pinpoint accuracy under adverse conditions is absolutely essential. This course will train military snipers to levels of fighting excellence that exceed normal standards. The beginner class includes firearms and scopes familiarization as well as the role of the sniper in a military organization. Students will be challenged to adapt and perform in a wide variety of environmental conditions that include precise simulations of actual scenarios like hostage rescue, suicide terrorist, enemy hostile fire long range and short range team protection.

The advanced class will involve the sniper in various hostage rescue missions and other challenging drills, and will include active training that elevates sniper performance in a variety of extreme operational conditions and adverse environments.

Subject Areas

- Principles of sharp shooting and combat fighting skills
- Sniper skills in urban environments and incidents involving insurgents and/or terrorists
- Role of the sniper in a military operation
- Firearms and scopes familiarization
- Night vision technology and use
- General ballistic applications
- Live drills, day and night exercises based on the latest war zone scenarios

Other costs may apply, see pages 15

• Code2SP – Urban Sniper/Sharpshooter, Police
--

Five Day Course: \$1,950 per person

When the success of an entire mission depends on one or a few crack marksmen, pinpoint accuracy is absolutely essential. An intense advanced course focused on upgrading individual skills and proficiencies with long rifle. This course exceeds normal law enforcement standards. The class is not just about marksmanship, but how to maximize the sniper's ability to act as both an individual and team member within a tactical operation.

The demanding Level 2 course is focused on increasing speed and accuracy from various distances, skill refinement and response to active scenarios based on real world events.

Subject Areas

- Principles of sharp shooting
- Loading techniques
- Optics use
- Intelligence gathering and distribution
- Night / adverse light shooting
- Calculation of distance with and without range finders
- Selective shooting and target discrimination
- Unexpected situations response
- Urban obstacle course
- Hostile fire and drills

Other costs may apply, see pages 15

• Code3A – Transportation Intervention, Airplane hostage rescue
--

Ten Day Course: \$4,950 per person. This is an advanced course and for experienced operators. Students will have to overcome many obstacles. Some include, but not limited to: airplane type, number of terrorists, hostages and many other factors: barricaded terrorists, hostages/criminals, explosives and many other factors.

Tubular conditions present unique tactical challenges and require top level firearms proficiencies that include accuracy and speed. Our highly specialized courses focus on new intervention and hostage rescue tactics in condensed environments with a lot of people such as aircraft, trains and

buses. This class is very interactive, rigorous and taught by instructors who are experienced Special Forces personnel that have developed and refined sophisticated takeover techniques specifically related to hostage rescue in tubular situations.

We will also review your existing equipment, provide an introduction to new technology and equipment, and recommend how to obtain equipment that is effective and low cost.

Subject Areas

- Advanced firearms training
- 180 & 360 degree assault tactics
- Various entry techniques (given aircraft type)
- “Cold” and “Warm” breaching tactics
- The role of the sniper
- Response to single/multiple armed active shooter(s), hijackers and suicide bombers
- Night / adverse shooting
- Identification of bombs, IEDs, trip wires
- Identification of terrorists or hostiles
- Selective shooting and target discrimination
- Real world scenario simulations in tubular environments

Other costs may apply, see pages 15. Example: airplane rental, special frangible training ammunition etc.

<ul style="list-style-type: none">• Code3B – Transportation Intervention, Bus hostage rescue

Five Day Course: \$1,950 per person. This is an advanced course and for experienced operators. Students will have to overcome many obstacles. Some include, but not limited to: bus type, number of barricaded terrorists, hostages/criminals, explosives and many other factors.

Tubular conditions present unique tactical challenges and require innovative breaching, top level firearms proficiencies that include accuracy and speed. Our highly specialized courses focus on new intervention and hostage rescue tactics in condensed environments with a lot of people such as aircraft, trains and buses. This class is very interactive, rigorous and taught by instructors who are experienced Special Forces personnel that have developed and refined sophisticated takeover techniques specifically related to hostage rescue in tubular situations.

We will also review your existing equipment, provide an introduction to new technology and equipment, and recommend how to obtain equipment that is effective and low cost.

Subject Areas

- Advanced firearms training
- 180 & 360 degree assault tactics
- The role of the sniper
- Response to single/multiple armed active shooter(s), hijackers and suicide bombers
- Night / adverse shooting
- Identification of bombs, IEDs, trip wires
- Identification of terrorists or hostiles
- Selective shooting and target discrimination
- Real world scenario simulations in tubular environments

• **Code3S – Transportation Intervention, Sedan/Van extractions**

Five Day Course: \$1,950 per person. This is an advanced course and for experienced operators. Students will have to overcome many obstacles. Some include, but not limited to: assemble random roadblocks, sedan/van type, number of terrorists/criminals, hostages, extracting suspected terrorist procedures and many other factors.

Subject Areas

- Advanced firearms training
- Extractions and arrest techniques
- 180 & 360 degree assault tactics
- The role of the sniper
- Night / adverse shooting
- Identification of bombs, IEDs, trip wires
- Identification of terrorists or hostiles
- Selective shooting and target discrimination
- Real world scenario simulations in tubular environments

Other costs will apply, see pages 15

• **Code4M – Mobile Force Protection, Military**

Ten Day Course: \$4,950 per person

Students will be exposed to terrorists Modus Operandi, based on recent case scenarios in Iraq, Afghanistan and Israel. Participants will learn new combat procedures in a hostile enemy environment (urban and rural).

This comprehensive course is designed to improve each operator's ability to survive and counter mounted/vehicular ambushes and improvised explosive devices. Students will be exposed to enemy combatant's Modus Operandi and learn new combat tactics based on constantly evolving conditions in war zones that include Iraq, Afghanistan and other hostile regions. Our instruction team consists of specialists, and each one is an expert in military mobile force protection, counter terrorist combat and special operations. We include role players, Sims and IEDs to initiate highly realistic attacks.

Subject Areas

- Surveillance detection /recon skills
- Vehicle-Borne Improvised Explosive Devices (VBIED) training
- Convoy and individual force protection measures
- Off-road, limited visibility and night vision driving
- Push thru, reverse out, y-turns
- Evasive maneuvers and driving skills
- Counter force offensive driving, enemy pursuit
- Ramming and rollover tactics
- Mounted counter ambush drills
- Dead man takeover exercises and wounded teammate drills
- Less than lethal weapons training

- Terminal ballistic effects during vehicle ambushes
- Mechanical problems and convoy protection
- Field expedient bulletproofing
- Operational rescue
- Live fire vehicle counter ambush drills

Other costs may apply, see pages 15

<ul style="list-style-type: none"> • Code4P – PSD - Motorcade Force Protection, Police & Security Forces
--

Ten Day Course: \$5,950 per person

Students will be exposed to terrorists Modus Operandi, based on recent case scenarios in Iraq, Afghanistan and Israel. Participants will learn new Motorcade protection procedures in urban environment

The personal security detail (PSD) is an intensive and comprehensive course designed to ensure the security and protection of the “executive/VIP”. Operators will learn security planning, VIP and escort techniques for mobile and foot operations, first aid, communication methods, navigation, evasive driving, shooting from a moving vehicle, how to react appropriately to threats, and how to cover and evacuate the executive / VIP / dignitary.

Subject Areas

- Vehicle preparation and levels of armor
- Recon, area search and screening
- Command and control, team member roles
- Foot and mobile details
- Coverage in crowds, buildings and open areas
- 360 degree security during movement
- Motorcade arrangement and formation driving
- Threat areas, general and specific
- Shooting from a moving vehicle
- Krav Maga
- IED detection, fire identification (chemical, electrical)
- Counter assault team tactics and ambush scenarios
- Evacuation routes and bailout techniques
- Ramming techniques and evacuation drills
- Down driver drills
- Egress, tactical SOPs, rehearsals
- Situational awareness and mindset
- Specific gear for VIP protection

Other costs may apply, see pages 15

<ul style="list-style-type: none"> • Code5CRT – First Responder & CRT, Crisis Response Team – Mega Terrorism
--

Three Day Course: \$750 per person – Basic. This course is directed mainly to patrol officers that are not a part of a CRT (Crisis Response Team). Upon completion of this course students will upgrade their operational skills.

Five Day Course: \$995 per person – Advanced. This course is a combined response to multiple attack scenarios (example: Mumbai terror attack in India). The Code5CRT course intended to upgrade and sophisticate the operational skills of a trained and experienced combatant. Students will spend more time performing drills.

The terrorist attacks in Mumbai, India as well as the 9/11 attacks emphasize the need for law enforcement to be able and prepared to respond to sophisticated and simultaneous attacks on multiple targets by well-trained terrorists. This combat course is the most comprehensive available in the U.S. and includes highly advanced Special Operations tactics that have been battle tested in the real world. Teams will learn how to deploy, conduct situational assessments and storm the objects simultaneously combining resources with other rescue and EMS teams. This class is very interactive, rigorous and taught by Israeli instructors with who are experienced Special Forces personnel that have developed and refined takeover techniques specifically related to hostage rescue and mass terrorism incidents.

Subject Areas

- Islamic radicals and the terrorist mindset
- Advanced firearms (pistol and rifle) tactics
- Night / adverse low light shooting
- Role of snipers
- Rapid deployment during MULTIPLE attacks in urban environments
- Crisis zones and perimeter containment
- Advanced entry tactics, 180 and 360 degrees
- Advanced breaching techniques
- Advanced room clearing, tactical movements in a hallway, stairwell and evacuation procedures
- Command and control procedures, team coordination with SWAT, EMS
- Identification of bombs, booby traps, IEDs, trip wires
- “Surprise” scenarios and realistic simulation exercises
- Coordination between school district, schools, district police and first responders

Other costs may apply, see pages 15

• Code5FR – First Responder & Assault/Alert Team for Active Shooter
--

Three Day Course: \$750 per person – Basic. This course is directed mainly to patrol officers that are not a part of a CRT (Crisis Response Team).

The terrorist attacks in Mumbai, India as well as the 9/11 attacks emphasize the need for law enforcement to be able and prepared to respond to sophisticated and simultaneous attacks on multiple public targets by well-trained terrorists. This combat course is the most comprehensive available in the U.S. and includes highly advanced Special Operations tactics that have been battle tested in the real world.

Teams will learn how to deploy, conduct situational assessments and storm the objects simultaneously combining resources with other rescue and EMS teams. This class is very interactive, rigorous and taught by Israeli instructors who are experienced Special Forces personnel that have developed and refined takeover techniques specifically related to hostage rescue and mass terrorism incidents.

Five Day Course: \$995 per person – Advanced. This course is intended to upgrade and sophisticate the operational skills of a trained and experienced combatant. Students will spend more time performing drills in order to respond to mass shooting incidents including Active Shooter.

Subject Areas

- Advanced firearms (pistol and rifle) tactics
- Night / adverse low light shooting
- Role of snipers
- Rapid deployment during MULTIPLE attacks in urban environments
- Crisis zones and perimeter containment
- Advanced entry tactics, 180 and 360 degrees
- Advanced breaching techniques
- Advanced room clearing, tactical movements in a hallway, stairwell and evacuation procedures
- Command and control procedures, team coordination with SWAT, EMS
- Identification of bombs, booby traps, IEDs, trip wires

Other costs may apply, see pages 15

• Code6IEDD – Improvised Explosive Device Disposal, Bomb Technician

25 Day course: \$19,995 per person

ISI offers unparalleled state-of-the-art IEDD training and related products due to our extensive combat experience in this arena. The course may be customized and will expose the student to new and highly unique tactics in dealing with IEDs. All our instructors have hands-on combat IED experience and our lead instructor is one of the foremost IEDD experts in Israel. As a one time end-user himself, our expert was inspired to find solutions that provided more efficient, safe and user-friendly ways to detect and dispose IEDs. His approach and product innovations in militarized equipment have revolutionized this field in Israel.

Subject Areas

- Various aspects of demolition
- Roadside bombs
- Dynamic breaching techniques and products
- Identifying & neutralizing car-bombs
- Identifying & neutralizing booby-traps
- Neutralizing Suicide bombers belts/vests
- Working methods for defensive/offensive demolition
- Marking "Dirty" zones
- Destruction of dangerous weapons cache
- Use of pyrotechnic elements in combat
- Customized requests

Other costs may apply, see pages 15. Example: range, explosives, and other customized gear.

• Code7A – SWAT, Advanced (Rappel Combatant)

Five Day Course: \$1,950 per person. For qualified/graduate SWAT members only. Upon completion of this course SWAT members will increase their proficiency with various assault techniques using special gear. The ultimate vertical solutions taught by Israeli masters. This dynamic course is designed to train and prepare mission combatants for various urban special and covert operations. Students will learn about state-of-the-art rappelling gear and combat rappel techniques that include weapons and tactics. Hands-on training includes being challenged by “surprise” scenarios and live fire exercises.

Subject Areas

- The role of the rappel combatant
- Introduction to all rappelling gear
- Introduction to the Omer system, the safest gear for the rappel combatant
- Silent rappelling
- Jumping and rappelling from a roof top
- Object analyzing and execution
- Rappel combatant and sniper work
- Dry practice and live fire shooting

Other costs may apply, see pages 15

<ul style="list-style-type: none">• Code7B – SWAT, Level 1

Five Day Course: \$1,200 per person. SWAT qualification course.

At the completion of this module, participants will be able take charge on crisis incidents, control and command of the hostage rescue operations. Participants will focus on the tactics for barricaded incidents, hostage incidents and terrorist situations.

This course will develop consolidation among team members.

Subject Areas

- Organizing a tactical response team and identifying the needed gear
- Front command communication center organization
- Personal tactical skills, rapid movement, and defensive tactics
- Utilizing the roles of sharpshooters -observers
- Climbing and rappelling techniques (Advanced Course Only)
- Conducting assaults, motorized assaults and raids on fortified targets
- Stealth approach and diversionary devices
- Clearing the site and hostage rescue

Other costs may apply, see pages 15

Code8HRZ – High Risk Zone. The “Invisible Unit” Micro Environment Warfare
--

15 and 30 Day Course: \$9,950 (14 day), \$18,950 (30 day) per person. The ultimate course for the Anti-terrorist combatant. Upon completion of this course students will be introduced to techniques that will enable them to blend (become a local) and perform high risk covert operations.

Rigorous training geared for executing entry and exit into Low Intensity Conflict Zones (LIC). This highly sophisticated course will fully prepare the operator to deal with complex the situations that exist in high-risk zones and how to create an "invisible unit." This 10-day course is one of ISI's most demanding both physically and mentally. Some topics are not mentioned due to confidentiality reasons. This course is a MUST for anyone who wishes to get involved in the field of Micro Environment, High Risk Terrorism Warfare.

- Upon completion of this course, ISI offers various advanced courses in order to complete the qualification.
- Course is taught by former commanders of Israeli Elite Anti terrorist unit with extensive operational experience.
- For security reasons, further information will be available only after verifying employment with a government agency or the military.

Subject Areas

- Advanced rifle, pistol, and SMG combat training
- Crisis management and control
- Combat driving, local driving styles, evasive maneuvers
- Rapid evacuation, route planning and administering first aid
- Hostile incident handling
- Operational emergency tactical response
- Tactical Navigation - urban and open field
- Bombs / explosives identification and search methods (IED)
- Understanding the field - familiarization with hostile and radical cultures
- Undercover protection - covert detail and operational behavior in hostile grounds (becoming a local)
- Highly realistic simulations based on current global scenarios

Other costs may apply, see pages 15. Example: mock city, car rental, role players, etc.

<ul style="list-style-type: none">• Code9CT – Corporate Government Traveler, intelligence & terrorism related seminar
--

Three Day Course: \$3,450 per person

This three-day course is oriented to the needs of government corporate personnel who are stationed abroad or travel both domestically and internationally. With security considerations in mind, corporate personnel will reduce personal risk and ensure the safe handling and success of their objectives.

In today's world, anyone can find themselves facing unexpected hostile conditions at home, in the workplace or while traveling. This three-day intensive course is oriented to the needs of expatriates or personnel who are traveling abroad or domestically. Students will learn how recognize and reduce risk, and respond to unexpected situations that can occur at a moment's notice. Our training will maximize the success of business objectives, protection of the corporation reputation and assets, and safety of the traveler. This course can be customized to meet a

corporation's specific needs and areas of travel and is taught by top international instructors with extensive security experience.

The course will expose the executive to various preventive measures against potential risks, which include kidnapping, sabotage, extortion, harassment, illegal trafficking, and acts of terror.

The goal will be achieved by introducing the attendees to principles of preventive measures and proactive actions, identifying threats and vulnerability evaluation in order to minimize or avoid potential risks. Some hands-on training will be included: firearms, driving, defensive tactics.

Subject Areas

- Pre-planning strategies
- Situational awareness and mindset
- Theft prevention and understanding local tactics
- Anti-Kidnapping
- Sabotage, extortion, and illegal trafficking
- Hotel safety
- Safe driving principles
- Protection of proprietary information and counter-espionage
- Parcel bomb identification
- How to respond to terrorism and other unexpected crisis situations

Other costs may apply, see pages 15

<ul style="list-style-type: none">• Code10KM – Krav Maga, Israeli unarmed fighting system
--

Three Day Course: \$950 per person – Basic. Upon completion of this course, student will be introduced to fundamentals of the Krav Maga and will upgrade their current skills with unarmed fighting skills.

Five Day Course: \$1,200 per person – Advanced. Upon completion of this course, students will learn more techniques, and will develop a better muscle memorization. Their proficiency with the Krav Maga System will increase significantly. This course is recommended for instructors who wish to develop their skills with the Krav Maga System.

Krav Maga is considered by many experts to be the most highly effective and devastating unarmed fighting system available. Students will learn to upgrade their hand-to-hand fighting and survival capabilities in this highly interactive combat Krav Maga course. Krav Maga is a battle tested defense system used by members of fighting forces around the world. This course is taught by elite Israeli instructors who are Krav Maga masters.

Subject Areas

- Disarmament techniques
- Fighting armed and unarmed assailants
- Fighting and suppressing multiple aggressors
- Escape and evasion methods
- Operator hostage situations
- Developing a fighting spirit, aggressiveness, and combat mindset
- Psychology of survival
- Tailored requests and customized courses/workshops available

LOGISTICS SUPPORT CAPABILITIES

Below are examples for logistical support. Requirements may vary based on client needs, course curriculum, course length, availability, and accessibility to objects.

- **The following are examples for price per person, basic, non-customized courses utilizing ISI Training Center instructor:**

Five-day course tuition: \$995 per person

Three-day course tuition: \$750 per person

- **Gun Rentals**

M4 and M9 set, sling and magazines \$95.00 per Day per person

- **Shooting range Rental**

Outdoor, up to 300 yards \$950 per Day

Outdoor, 800-1,000 yards \$1,250 per Day

- **Shoot-house Rental**

3,000 sqf \$1,500 per Day

- **Driving course Rental**

This is a training area for students to perform drills with vehicles against common ambushes. Example: students will perform quick U-turns, J-turns, quick reverse, and escape maneuvers.

Surface: Asphalt \$950 per Day

- **Off Road (4X4) area Rental**

Uneven, rural area. Students will train and practice mobile force protection and motorcade security in a non-urban environment.

\$750 per Day

- **Ammunition, Mil Spec** (subject to availability, market changes, not including S&H)

9MM (ball, FMJ ammo) \$450 per 1,000X

5.56 (ball, FMJ ammo) \$550 per 1,000X

- **Car Rentals** (for training purposes)

Sedan \$450 per Day

Large SUV, Large Van, 4X4 Vehicle \$450 per Day

ATV \$250 per Day

Ramming vehicles, running \$450 per Day

Ramming vehicles, not running \$300 per Day

- **Aircraft Rental** (for training purposes. Estimated, price may vary upon availability)

Large size Aircraft (747, 737 etc.) \$3,500 per Day

Medium size Aircraft (Airbus, MD-80 etc.) \$2,800 per Day

- **Trained Role Player**

Assault scenarios, Domestic Attire, Weapons \$350 per Day (8 hours)

- **Non-Lethal kits Rental**

(Simmunition, UTM, Paintball) Call for a quote

ISI LLC SECURITY SERVICES (CONUS & OCONUS)

Tier 1 Operator

\$1,850 per Day

An ISI, LLC. consultant and operator with five years of proven operational experience in High Risk Zone (HRZ) Special Operations. Minimum 10 years instruction experience. Operator/Consultant must have military skills based on serving in one of the following:

US Navy Seals, Delta Force, USMC Recon, USAF Special Operations, US ARMY Special Operations, Israeli Yamam, Israeli GSS, Israeli Commando Units, with abilities that include but not limited to: Covert Operations, Hostage Rescue, Close Quarter Battle, Sniper, Dignitary Protection, Surveillance and Counter-Surveillance, Improvised Explosive Device Disposal & Detection, Expert Marksmanship with Small Arms, Combat Medic, Intelligence Gathering, Mobile Force Protection, Motorcade Protection (PSD), Bilingual or Multi-Lingual.

Tier 2 Operator

\$1,550 per Day

An ISI, LLC. consultant and operator with three years of proven operational experience in High-Risk Zone (HRZ) Special Operations. 5 years instruction experience. Operator/Consultant must have military skills based on serving in one of the following:

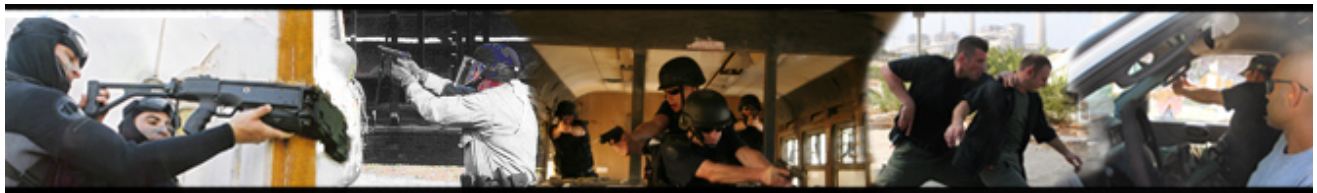

USMC Recon, USAF Special Operations, with abilities that include but not limited to: Covert Operations, Hostage Rescue, Close Quarter Battle, Sniper, Dignitary Protection, Surveillance Counter-Surveillance, Improvised Explosive Device Demolition & Detection, Expert Marksmanship with Small Arms, Combat Medic, Mobile Force Protection, Motorcade Protection (PSD), Bilingual.

Tier 3 Operator

\$950 per Day

An ISI, LLC. consultant and operator with 2 years of proven operational experience in High-Risk Zone (HRZ). Operator/Consultant must have military skills based on serving in one of the following:

US Army, USAF, US Navy, with abilities that include but not limited to: Close Quarter Battle, Dignitary Protection, Surveillance and Counter-Surveillance, Expert Marksmanship with Small Arms, Combat Medic, Mobile Force Protection, Motorcade Protection (PSD), Static Security.

TERMS & CONDITIONS

- **Discounts**

Repetitive business (example, five consecutive courses/services): 2% off tuition price only.

- **Registration & Payment**

Registration and payment in full must be on file prior to service commencement.

- **Medical Questionnaire (military are exempt)**

For tactical courses, Medical Questionnaire must be completed by each student and sent to ISI no later than seven days prior to course/service commencement. No exceptions.

- **ISI Instructors' Expenses**

Airfare, Transportation, Hotel and Meals are extra

- **Beginning**

Activities will start upon acceptance of proposal in a form of a signed contract and payment.

- **Cancellation Policy**

See exhibit 1 page 18

- **Payment Terms & Methods**

1. *Funds transfer to ISI LLC Bank account*
2. *Government check or cashier check (payable to Instinctive Shooting International, dba ISI LLC)*
3. *Credit cards: VISA, M/C, DISCOVER, AMEX*
4. *WAWF (Procurement Integrated Enterprise Environment, PIEE)*

Payment and Cancellation Policy

1. A full payment is required to reserve your spot in the training/service and for the selected day and time.
2. The advance payment serves to guarantee your booking with ISI Training Center. This means that once you have received confirmation from us that your booking has been received, we will hold your place in the training or service for the date(s) and time you have specified (the Training/Training Date).
3. Cancellations made 15 days or more in advance of the Training/Service Date, will receive a 100% refund of your payment/deposit. Cancellations made between 14 days and 7 days of the Training Date will incur a 50% fee and the remaining 50% will be refunded. Cancellations made less than 7 days from the Training Date there will be no refund.

I understand that I am holding a spot for this training and if I am unable to attend, I understand that I will receive credit towards another Training Date made within 90 days of the original Training Date.
